3rd Berlin Neonatology Summer School

Berlin, Germany | 24–25 August 2018

WELCOME

Dear Colleagues,

The care of the newborn infant is an ever evolving field, and therefore neonatologists are in constant search for the best treatment available for their little patients and the evidence supporting it.

The Berlin Neonatology Summer School, first launched in 2012, was set up to cover this need, combining state-of-the-art lectures, discussions on evolving therapeutic options, and practical hands-on skills courses. In 2012, the Summer School was attended by participants from 25 countries, and the number of countries rose to more than 35 in 2014.

In 2018, the first day of the summer school will be dedicated to novel therapies and rare conditions in neonatology, while the second day features workshops covering more classical topics such as surfactant administration without endotracheal intubation, pneumothorax drainage, or emergency vascular access.

Berlin is a lively city with affordable prices, so join us for the 3rd Summer School in 2018!

Kind regards

Christoph Bühner

on behalf of the Neonatology Team
of the Charité University Medical Center

SCIENTIFIC PROGRAMME

Friday, 24 August 2018

- 9:00 Opening remarks
C. Bühner, Berlin
- 9:10 Perinatal asphyxia – treatment when resources are limited
Ö. Erdevi, Ankara
- 9:35 Maternal tuberculosis – protection of the infant
C. Feiterna-Sperling, Berlin
- 10:00 Postnatal corticosteroids and BPD: Inhaled or mixed with surfactant?
D. Bassler, Zürich
- 10:25 Coffee break and industrial exhibition
- 11:00 Neonatal diabetes and hyperinsulinemic hypoglycemia of infancy – two sides of the same coin?
K. Raile, Berlin
- 11:25 Congenital vein of Galen aneurysm: Clinical features and aneurysmal characteristics as outcome predictors
S. Eventov-Friedman, Jerusalem
- 11:50 Neonatal hemochromatosis – exchange transfusion to prevent liver transplantation
H. Fischer, Berlin
- 12:15 Lunch break and industrial exhibition
- 13:15 Orphan Europe (Germany) GmbH
Hyperammonaemia in the neonatal period
D. Dobbelaere, Lille
- 13:45 Milk curd (lactobezoar) obstruction
A.-C. Longardt, Berlin
- 14:10 Prevention of sepsis by oral lactoferrin as a food additive
J. Berrington, Newcastle
- 14:35 Coffee break and industrial exhibition
- 15:10 Excipients in drug formulations – rarely thought of by neonatologists
K. Allegaert, Leuven
- 15:35 Ultrasound in the diagnosis of pneumothorax
C. Czernik, Berlin
- 16:00 bluebird bio
Diagnosis and treatment of cerebral adrenoleukodystrophy (CALD)
J.-S. Kühl, Leipzig
- 16:30 Complications of invasive procedures in extremely low birth weight infants
M. Berns, Berlin

Saturday, 25 August 2018

10:00–14:00

Hands-on skill courses

Arrival by yourself

Department of Neonatology
Charité Campus Mitte
Instructor: M. Berns

Department of Neonatology
Campus Virchow-Klinikum
